Question: Can you fill this with compressed air instead of CO2?

Answer: No, never fill a CO2 cylinder with compressed air, it's very dangerous

Question:

Can i leave regulator attached to co2 tank for prolonged time? should i be worried about leaking co2?

Answer:

No worries as long as the seals are tight. You can submerge the tank with regulator attached in a bucket of water and check for leakage. If bubbles are appearing anywhere around the connections it means you have a leakage. Otherwise you should be fine.

Question:

Cde, where you find ragulator valve adapter??? And what is the thread of the tank???

Answer:

Don't buy the tank it's completely useless!!! Broke when it arrived

Question:

Is it refillable?

Answer:

Yes, it will ship empty and you will have to get it filled. It can be refilled until the expiry date stamped on the tank.

★★★★★ **Perfect for Sodastream**

September 23, 2017

Verified Purchase

Bought two based on a review on Amazon.com that said they were clean inside and would be good for Sodastream + Sodamod use. Been using one of the tanks with my Sodamod for the last week and there's no aftertaste or odour. Very satisfied for the price. Fits well into my Sodastream Play.
